

# Aurora Pons Porrata Award

## CIARP-IAPR 2019

### \*\*\*Call for Nominations\*\*\*

We welcome nominations for the Aurora Pons Porrata (APP) Award. This Iberoamerican annual prize is given to a living woman in recognition of an outstanding technical contribution to the field of pattern recognition or data mining, and consists of a cash amount, a suitably inscribed certificate and a medal. Besides, the winner must send a good quality paper about her recent research to be published on a Special Section of the journal *Pattern Recognition Letters*. Any woman from Iberoamerica is eligible to be nominated, except for the current members of the APP Award Committee.

To initiate the nominations, each Iberoamerican Pattern Recognition Society should evaluate and select candidates to be postulated for the Aurora Pons Porrata Award. After that, the CVs of final candidates will be submitted to the Cuban APP Coordinator Committee. Each nomination could be endorsed by at least one endorsement letter, from a member of an Iberoamerican Pattern Recognition Society different from the nominator.

All proposals received from Local Committees will be evaluated by an Awarding Committee that selects the winner. This committee will be composed of three prestigious female researchers from all over the world.

Electronic CVs and endorsement letters should be submitted no later than **July 15, 2019**. Winner candidate will be announced in the CIARP 2019.

Please address your data through email to the coordinator of the APP Award Committee,

Reynier Ortega Bueno,
